

The Kabbalistic Tree of Life— An Experiential Journey through the Higher Worlds

with Douglas R. Barker

Have you ever wished to journey in Spirit and discover the secrets of creation, both cosmic and personal?

Do you desire to manifest a personal project or creative endeavor?

Would you like to learn something of the teachings of the secret Mystery Schools of ancient Alexandria?

The Kabbalistic Tree of Life is the backbone of the Western mystical and magical tradition—a diagram of the Macrocosm with its planetary spheres as well as the human psyche—the Microcosm. Developed over many centuries the Kabbalah is a Hermetic art with shamanic roots and is closely related to Astrology, Alchemy, Tarot and Ritual Magic. And the Tree of Life is a powerful key to both mystical states of consciousness and magical workings.

During this 13-week course you will be guided through the ten energy spheres of the Tree of Life—the Sefirot—from the top at Kether down to the bottom at Malkuth. We will travel each week into a specific region of the Spiritual Worlds through a deep, guided meditational journey. You are encouraged to have a project in mind that you wish to manifest, as you will see it coming together step-by-step as we descend the Tree of Life.
