

ASCENSION WORKSHOP

1

This class has been developed to help you release the illusions, negative beliefs and energies holding you back from manifesting on a deeper and more profound level. As we release, we raise the vibration of our physical body and our energy fields, allowing ourselves to heal disease or imbalances and awakening the divinity (or the Light) stored deep within our very cells. We also do this by deepening our expression to live and allowing ourselves to be loved in every moment.
